

An industry engagement program established by the Queensland Trucking Association and funded by the Queensland Department of Education and Training, focusing on Vocational Education and Training in Queensland.

## Fatigue Management Project

Development of units of competency to meet the Fatigue Management accreditation requirements of the National Heavy Vehicle Regulator (NHVR).

Working with the Transport and Logistics IRC and industry stakeholders, this project will see the development of three new units of competency to meet the accreditation requirements of the NHVR. Job roles covered by these units will include drivers, schedulers, supervisors, managers and business owners.

This project has been approved by the Australian Industry and Skills Committee (AISC) and is expected to be submitted for endorsement by 31st March 2017.

There will be regular project updates on this page throughout the life of the project.

If you have any questions or queries about this project or would like to be involved in the consultation process, please contact Industry Manager – Klausch Schmidt via email [klausch.schmidt@australianindustrystandards.org.au](mailto:klausch.schmidt@australianindustrystandards.org.au)
